Professional Summary

I am an engineer who is passionate about developing unique solutions to technical problems. My experience with a wide network of languages and frameworks such as React, Swift, MongoDB, Vue and PostgreSQL makes me a formidable and dynamic developer across the full stack. I strive to grow and build upon these skills both personally and professionally in my next role as a software engineer.

Projects

Verve Refactor - *Tech Utilization: Express, Node, CSS, Javascript, PostgreSQL*

Refactored a local gym's website to feature a clean and efficient user experience. Created an authorization and authentication system. Implemented different content delivery based on user roles to incentivize the marketing of proprietary content. Deployed on Heroku.

Minesweeper - *Tech Utilization: HTML, CSS, Vanilla Javascript*

Created a microsoft inspired minesweeper application to explore game logic. Explored advanced data structures and algorithms. Deployed through github.

Devspot - *Tech Utilization: React, Node, CSS, MongoDB, Git*

Worked on a team to create an application for developers to gain collaborators on open source projects. Implemented authentication and authorization for users. Deployed on Heroku and Netlify.

Experience

General Assembly - (*Remote*) - 2020

Developed a portfolio of individually and collaboratively focused projects

Haven House - (*Los Angeles, CA*) - 2016-2018

Implemented facility systems and training following Jcaho and HIPAA standards. Achieved facility Jcaho accreditation through team collaboration. Audited and maintained database of electronic medical records for compliance.

Education

General Assembly - (*Remote*) - 2020

Three-month., 500-hour full-time and full-stack program conducted in a remote setting, providing experience with the latest front and back-end programming languages, tools and methodologies.

Community College of Denver- (*Denver, CO*) - 2018-2019

Studied fundamental concepts of nursing.

Skills

Javascript, HTML, CSS, React, Vue, Next.js, Node, Swift, SwiftUI, Express, EJS, MongoDB, PostgreSQL, MySQL, Ruby, Python, Flask, Git, Adobe CS
